To the Hon Board of Supervisors
Black Hawk County Iowa

Respectfully
I beg to state at a former session
of this board the petition of
Chaplain Wm. Brewster for a Board
on Sunday School in this County
a. Commenced at present and his
report filed and the Board of Directors
of the Board failed to set a day for
final hearing and on George
Johnson made application as
Agent of Institution it takes this morning
at the next board.

Upon Examination of
the proceedings it being found that
the Board had unnecessarily made
an error this error was corrected and
the Board Board set aside the previous
map of the Board. So far as relates
to the establishment of a Board. and
decided that the same Board of Supervisors
shall be set up and set up to be set up
as soon as possible. It is thought and
that this Board. take such further
action as the Supervisors. as well as Agents by
the order of the Board of Directors to establish
such Board

To the Hon Board of Supervisors
of Black Hawk County State of Iowa
Haver Petitioners, George Johnston,
would respectfully represent that
he resides in Barclay Township
County of that aforesaid,
that there has been steps taken
to establish a road running
through Haver Petitioners land
called the Champion Road,
that if said Road is establish-
ed as contemplated in the
proceedings now before Haver
Hon Board. Haver Petitioners
would submit themselves in
the sum of Five hundred
dollars, that if said Road is
established he prays that he
may receive the amount of
Said money as sustained,

from home and upon my
return I immediately met
to the Court Room with the
intention of ascertaining
the execution of said Road
and then found out for the
first time that a long had
been filed upon for a fine
hearing of said Road, a plan
the report having previously
made by the Commission
appointed by the said Board
& that they also had then expenses
paying of claims for damages

You are hereby notified that you have been appointed a Commissioner to view, and if required to locate, a _____ County Road, petitioned for by Samuel
Hamblin and others. Said _____ Road petitioned for, is
 to commence at the North West Corner of Section 31
running East on Section line to the North
East corner of Sect 36 All in Township 89 Range
N 9 11

You will, therefore, appear at the Office of the Clerk of Acheson with
said County, on the 9 day of April A. D. 1866, at Two
O'Clock, and qualify according to Law, and proceed immediately to the discharge of your duty
and make your report thereon according to Law and the following Instructions, on or before
the next term of this Court: To-wit: the 1st of September

1. In your survey of this Road you will particularly describe the point of commencement, with reference to some monument record, which will generally be found to consist of corners in the public and private surveys; the exact course and distance from some one of which, you must give in your field notes.
2. You must also measure to, and in your field notes return the distance to some section or quarter section corner, from the point where you intersect each and every line of sections in the public surveys.
3. The point at which you terminate your survey must be ascertained and returned by reference to the same evidence as is herein required for the commencing point.
4. All letters and figures inscribed upon wood must be cut with a "marking iron," similar to that used in the government survey of lands.
5. Where bearing trees are taken, (and it is strongly enjoined that, if within ten chains of an angle, they should without fail be taken,) a smooth face fronting the angle of the Road, should be made as near the ground as practicable, and in this face should be cut the initial letters of the points of beginning and ending of the Road. For example—a Road from Dubuque to Cascade: D. & C. R. When bearing trees cannot be had at angles, it is recommended that the bearing and distance to a boulder, edifice, or corner of an enclosure be taken, and where this is impracticable, a large mound of earth should be raised at the point of the angle.
6. Marks in timber will consist of a smooth blaze with a notch in the center, except those trees which the line cuts, each of which must have three notches, both upon the side which the line strikes and that upon which it leaves the tree.
7. After completing your survey of this Road you must carefully protract the same upon paper, with a view to the detection of all errors, either in your chaining or course.
8. Before commencing your survey you must compare and adjust your chain to a standard kept for that purpose, in this office.
9. These Instructions in no way relieve you from each and every duty prescribed by the Code of Iowa, pages 91 and 92.
10. Your compass must be adjusted to run upon the true medium; that is, the true magnetic variation only must be employed, and this must invariably be stated, and all changes, as a part of the field notes of this survey.
