To the Honorable Board of Supervisors  
of Black Hawk County:

My undersigned having been appointed  
a Commissioner to view & if feasible  
propose, locate a certain road in  
said County, petitioned for by the  
commissioners thereof and would report  
as follows - That having been duly sworn  
the found upon examination the route an  
impracticable one & would recommend  
the vacation of the road for the following  
reasons. First it would cost more  
than one thousand dollars to put it in  
good condition as thirty or more rods  
will have to be bridged - secondly  
there are no persons residing on it  
so there are two rods running parallel  
to it. The (89) fifty rods south of it  
& the other (160) one hundred & eighty rods  
north of it that will accommodate  
the traveling public said road  
lies between sections (14) Jordan & 28 town 5  
- three township (89) fifty nine Range (11) eleven  
in Barclay township Black Hawk County -  
a plot of which is hereto annexed

All of which is respectfully submitted

In pursuance to a Commission issued to  
me by the County Court of Black Hawk County  
I was upon the 16<sup>th</sup> <sup>29<sup>th</sup> of June</sup> 1862 authorizing me  
to examine into the expediency of locating  
a portion of the County road known by the name  
of Black Hawk County road as the County road,  
to wit on the South line of Section 34, Township 14  
in Township 15, R. 18<sup>th</sup> N. 18<sup>th</sup> W. North of Range  
15, T. 15<sup>th</sup> N. West and report upon the same,

Now Commission makes the following  
report that he repaired to the place where said  
location is petitioned for and examined into the  
propriety of said location, and finds that the  
location in question would not be for the convenience  
of the community generally, would make a  
somewhat circuitous road instead of a direct  
one as it now is, and would therefore recom-  
mend that the road remain as it now is

## Office of the County Clerk,

BLACKBURN COUNTY, IOWA.

Waterloo, Jan June

1867.

To R. S. Hatcher

You are hereby notified that you have been appointed a Commissioner to view, and if need, to locate a vacant County Road, petitioned for by Peter Munbawer et al and others. Said Road ~~petitioned for~~ is to commence at West part of said road that lies between the N. E. corner of Section twenty four and the northwest corner of Sec 23 Township 89 Range Eleven (11)

You will, therefore, appear at the Office of Court Clerk County, on the 1<sup>st</sup> day of June at 10. 1867, at 4 o'clock P. M., and qualify according to Law, and proceed immediately to the discharge of your duty and make your report thereon according to Law and the following Instructions, on or before the next term of this Court:

1. In your survey of this Road you will particularly describe the point of commencement, with reference to some monument record, which will generally be found to consist of corners in the public and private surveys; the exact course and distance from some one of which, you must give in your field notes.
2. You must also measure to, and in your field notes return the distance to some section or quarter section corner, from the point where you intersect each and every line of sections in the public surveys.
3. The point at which you terminate your survey must be ascertained and returned by reference to the same evidence as is herein required for the commencing point.
4. All letters and figures inscribed upon wood must be cut with a "marking iron," similar to that used in the government survey of lands.
5. Where bearing trees are taken (and it is strongly enjoined that, if within ten chains of an angle, they should without fail be taken,) a smooth face fronting the angle of the Road, should be made as near the ground as practicable, and in this face should be cut the initial letters of the points of beginning and ending of the Road. For example—a Road from Dubuque to Cascade: D. & C. R. When bearing trees cannot be had at angles, it is recommended that the bearing and distance to a boulder, edifice, or corner of an enclosure be taken, and where this is impracticable, a large mound of earth should be raised at the point of the angle.
6. Marks in timber will consist of a smooth blaze with a notch in the center, except those trees which the line cuts, each of which must have three notches, both upon the side which the line strikes and that upon which it leaves the tree.
7. After completing your survey of this Road you must carefully protract the same upon paper, with a view to the detection of all errors, either in your chaining or course.
8. Before commencing your survey you must compare and adjust your chain to a standard kept for that purpose, in this office.
9. These Instructions in no way relieve you from each and every duty prescribed by the Code of Iowa, pages 91 and 92.
10. Your compass must be adjusted to run upon the true medium; that is, the true magnetic variation only must be employed, and this must invariably be stated, and all changes, as a part of the field notes of this survey.

Given under my hand, and the Seal of said County, at my Office in Waterloo, this 1<sup>st</sup> day of June 1867.

Wm. Shankland County Clerk.  
By J. B. Hatcher Deputy.

The State of Iowa, } ss.  
BLACKHAWK COUNTY.

R. J. Mosher

do solemnly swear, that I will, to the best of my ability, perform the duties of Commissioner on the within road, according to law, and the foregoing instruction.

Subscribed and sworn to before me  
this 8th day of June A. D. 1867.

R. J. Mosher

J. C. Bates

Commission.
