Do *J. A. Abbott*

You are hereby notified that you have been appointed a Commissioner to view, and if expedient, to locate a county road, petitioned for by *Margaret Mungant* and others, and to be called the *Mungant* Road, described as follows:

Commencing at the *South East corner of Section 30*
Quincy Ave (31) running North on Section line thru the
Range 170 E. Corner (11) West of the 3rd P.M.
thence running North on Section line thru the
Quarter (334) North to the Waterbury & Barclay Road

You will, therefore, appear at the office of some Justice of the Peace, Notary Public, or Clerk of the Board of Supervisors, and qualify according to law; and on the *12th* day of *July* 18*69*, you will proceed to commence the examination of the route above described, and if, in your judgment, the above road is needed, or one in the vicinity answering the same purpose, you will call to your assistance the necessary aid, and proceed to lay out and mark the same according to law and the following instructions, and report to the Board on or before the *26th* day of *July* 18*69*.

1. In your survey of this road you will particularly describe the point of commencement, with reference to some prominent record, which will be generally found to consist of corners in the public and private surveys; the exact course and distance from some one of which you must give in your field notes.
2. The point at which you terminate your survey must be ascertained and returned by the same evidence as is herein required for the commencing point.
3. All letters and figures inscribed upon wood, must be cut with a "marking iron," similar to that used in the Government survey of lands.
4. Where bearing trees are taken, (and it is strongly enjoined that, in within ten chains of an angle, they should not be taken,) a smooth face from the trunk of the tree, should be made as near the ground as practicable, and the bearing should be taken from the point of the trunk, and the bearing and distance to the corner of an adjacent section, and where this is impracticable, a large mound of earth should be raised at the point of the angle, both upon the side which the line strikes, and that upon which it leaves such trees. All the posts must be set up at every mile, and the distance marked thereon. Stakes must be set at the crossing of fences and streams, and at intervals in the prairie not exceeding one-fourth of a mile each.
5. After completing your survey of this road, you must carefully preclude the same upon paper, with a view to the detection of all errors, either in your chaining or course.
6. These instructions in no way relieve you from each and every duty prescribed by the laws of Iowa Revision of 1860, pages 134 and 135.
7. All your assistants are required to be sworn by some person authorized to administer oaths.

Given under my hand and seal, this *17th* day of *June* 18*69*.
