To E. C. Humphrey

You are hereby notified that you have been appointed a Commissioner to view, and if expedient to locate a county road as petitioned by E. C. Davis and others, and to be called the Davis

Road, described as follows:

Commencing at the South East Corner of Section No thirty-five (35) in Township of No Eighty Eight (88) North of Range of No fourteen (14) West of the 5th Mer. running thence West on Section lines to the South West corner of Section No thirty six (36) in said Township & Range

You will, therefore, appear before some officer authorized to administer oaths in and for said county, and qualify according to law; and on the 27th day of August 1872, you will proceed to commence the examination of the route above described, and if, in your judgment, the above road is needed, or one in the vicinity answering the same purpose, you will call to your assistance the necessary aid, and proceed to lay out and mark the same according to law and the following instructions, and report to the Board on or before the 31st day of August 1872.

1. In your survey of this road you will particularly describe the point of commencement, with reference to some monument record, which will be generally found on corner in the public and private surveys; the exact course and distance from some one of which you must give in your field notes.
2. In your report at which you terminate your survey must be ascertained and returned by reference to the same evidence as is herein required for the commencing point.
3. All letters and letters inscribed upon wood, must be cut with a "marking iron," similar to that used in the Government survey of lands.
4. Where bearing trees are taken, (and it is highly expedient that if within ten chains of an angle they should without fail be taken,) a smooth face fronting the angle of the road, should be made as near the ground as possible, and in this face should be cut the initial letters of the points of beginning and ending of the road. For example:—a road from Delhi to Colony—D & C R. Where bearing trees cannot be had at angles, it is recommended the bearing and distance to a boulder, edifice, or corner of an enclosure be taken, and where this is impracticable, a large mound of earth should be raised at the point of the angle.
5. Marks in timber will consist of a smith "chize," with a notch in the center, in the trees with the line cuts, each of which must have three notches, both upon the side which the line strikes, and that upon which it leaves such trees. All the marks be set up at every mile, and the distance marked thereon.—Stakes must be set at the crossing of fences and streams, and at intervals in the prairie not exceeding one-fourth of a mile each.
6. After completing your survey of this road, you must carefully protect the same upon paper, with a view to the detection of all errors, either in your chaining or course.
7. These instructions in no way relieve you from each and every duty prescribed by the laws of Iowa Revision of 1860, pages 134 and 135.
8. All your assistants are required to be sworn by some person authorized to administer oaths.

Given under my hand and official seal this 30th day of July 1872.

AUDITOR'S OFFICE, **Black Hawk** County, Iowa.

To **W. O. Tanreuther**

You are hereby notified, that you have been appointed a Commissioner to view, and if required, to **Vacate** a **County** Road, petitioned for by **Ralph P. Slessor** and others, and described as follows:

Commencing at **the South East corner of Section 35, Township 88, Range 14**

and running thence **Westerly along the South side of said section**

and terminating at **the South West corner of section 35, Township 88, Range 14.**

You will therefore appear at the office of some Justice of the Peace, Notary Public, or other proper officer and qualify according to law, and on the **3rd** day of **April** A. D. 19**29**.

You will proceed to make an examination of the route above described. If, in your judgment, the above road is needed, or one in the vicinity of the route described, answering the same purpose, you may call to your assistance the necessary aid, and each being duly sworn, cause said line to be accurately surveyed and plainly marked out.

You will connect your starting point with the nearest section corner or quarter post. When, however, there is a corner of a forty established in a permanent manner, more convenient, you may connect with it. In crossing a section line, note that fact, and state the distance from the nearest section corner or quarter post. The plat of the survey to accompany the field notes should be on the scale of forty chains to the inch, with the section crossed by the survey laid off upon the like scale, and correctly numbered as per United States survey. Also, note all natural or artificial monuments or conspicuous objects, and the junction of streams. Also, report the number of bridges required, if any, and the probable cost thereof, on the proposed highway, as required by section 1493, code of 1897. A strict compliance with these requirements is necessary.

You will report your proceedings, together with a correct plat of the proposed **Vacation** to this office on or before the **26th** day of **April** A. D. 19**29**.
