Dear Sir

In reply to yours of the date-
"recd" I would say there is no evidence of the road
namely Union & West Union being vacated, it yet stands
on the Road Plat of this County as an Established
road - bearing date of Survey 1857, running
diagonally through Sec 31 - Jefferson Twp - 87-10
Striking Sec 25 - Black & Clarke Co, & running
thence North on Co line - to a point about 40 rods
North of S.W. cor of S 24, Sec - 6 - 87-10, & running thence
North to center of Sec 6 - 87-10. And intersecting a
North & South road at or near center of Sec 6 - 87-10
This I believe will fully answer your interrogatories

Yours truly H. F. Sill

To Wm. Parker Auditor's Office, Black Hawk County, Iowa.

You are hereby notified, that you have been appointed a Commissioner to view, and, if required, to vacate a County Road, petitioned for by C. H. Rice et al. and others, and described as follows, to-wit:

Commencing at the County line of Black Hawk and Buchanan Counties where the Vinton and West Union road ^{under running thence} intersects the line of Black Hawk County and running thence due North on said County line of Black Hawk and Buchanan Counties to where the Spring Creek and County line road (No 2) intersects said County line of Black Hawk and Buchanan Counties.

and terminating at said intersection

You will therefore appear at the office of some Justice of the Peace, Notary Public, or other proper officer, and qualify according to law, and on the 16th day of October A. D. 1890 you will proceed to make an examination of the route above described. If, in your judgment, the above road is needed, or one in the vicinity of the route described, answering the same purpose, you may call to your assistance the necessary aid, and, each being duly sworn, cause said line to be accurately surveyed and plainly marked out.

You will connect your starting point with the nearest section corner or quarter post. When, however, there is a corner of a forty established in a permanent manner, more convenient, you may connect with it. In crossing a section line, NOTE that fact, and state the distance from the nearest section corner or quarter post. The plat of the survey to accompany the field notes should be on the scale of forty chains to the inch, with the section crossed by the survey laid off upon the like scale, and correctly numbered as per United States survey. Also, note all natural or artificial monuments or conspicuous objects, and the junction of streams. Also, report the number of bridges required, if any, and the probable cost thereof, on the proposed highway, as required by Chapter 80, Laws Nineteenth General Assembly. A strict compliance with these requirements is necessary, in order to establish a uniformity in the practice, and to enable the Clerk to correctly transcribe them for record.

You will report your proceedings, together with a correct plat of the proposed Road to this office on or before the 16th day of November A. D. 1890
