To T. J. Humphrey
Auditor's Office, Blackhawk County, Iowa.

You are hereby notified, that you have been appointed a Commissioner to view, and, if required, to locate a County Road, petitioned for by Joseph Sturman and others, and described as follows, to-wit:

Commencing at the intersection of the $\frac{1}{4}$ Sec line running East & West through Sec 16-87-11 and the State Road and running thence North West & South East through said Sec 16; and running thence South East and terminating at a point where said State Road intersects the State Road running North & South along the East boundary line of said Sec 16:

And to view, and, if required, to locate in lieu thereof a road fifty (50) feet in width along the following line, to-wit:

Commencing at a point on the East boundary line of said Sec 16, 87.11 midway between the North East corner and the South East corner of said Sec and running thence West on the quarter section line and terminating at the State Road running North West and South East through said section 16.

and terminating at

You will therefore appear at the office of some Justice of the Peace, Notary Public, or other proper officer, and qualify according to law, and on the 19th day of June A. D. 1899 you will proceed to make an examination of the route above described. If, in your judgment, the above road is needed, or one in the vicinity of the route described, answering the same purpose, you may call to your assistance the necessary aid, and, each being duly sworn, cause said line to be accurately surveyed and plainly marked out.

You will connect your starting point with the nearest section corner or quarter post. When, however, there is a corner of a forty established in a permanent manner, more convenient, you may connect with it. In crossing a section line, NOTE that fact, and state the distance from the nearest section corner or quarter post. The plat of the survey to accompany the field notes should be on the scale of forty chains to the inch, with the section crossed by the survey laid off upon the like scale, and correctly numbered as per United States survey. Also, note all natural or artificial monuments or conspicuous objects, and the junction of streams. Also, report the number of bridges required, if any, and the probable cost thereof, on the proposed highway, as required by Chapter 80, Laws Nineteenth General Assembly. A strict compliance with these requirements is necessary, in order to establish a uniformity in the practice, and to enable the Clerk to correctly transcribe them for record.

You will report your proceedings, together with a correct plat of the proposed location to this office on or before the 19th day of July A. D. 1899
