against the Change asked for by Israel
Chapin and others in the Waterloo and

Waterloo Sept 24th 1897

To the Hon County Court Black Hawk Co
 Having been appointed a Commissioner to view and locate a road petitioned for by Israel Shafer and others at last term of said Court I proceeded on the 22nd inst according to Law and the instructions of my Commission to the commencing point as therein designated and made a survey of the road of which survey the accompanying plat and Field notes is a correct copy

The design of the petitioners being to obtain a discontinuance of a portion of the Waterloo and Wapsipinicon road and the establishment of the new line as a substitute for that portion I have shown both the Old and the new line on the plat

The design of the petitioners being to obtain a discontinuance of a portion of the Waterloo and Wapsipinicon road and the establishment of the new line as a substitute for that portion I have shown both the old and the new line upon the plat

The change will be a great convenience to the settlement, the new line being on higher ground and running at nearly right angles and upon established division lines being already partially fenced and improved as a road. Nearly all the ^{farm} improvements and buildings of the settlement are upon the new line. The change will be a convenience to all who are privately interested and no in convenience to the public. I would therefore recommend that the same be made and the new line established
