

NE 16-88-12

Est. Corner according to old Survey
Notes John Bull, Sub-divisions Sec. 9
± Nate Barber Notes in Survey
Records Book #1, County Court House.
See Random Chain Notes 88-12.

John Ball's Sub-division Survey 1872, shows
very long $\frac{1}{4}$ dist. & Stone at $\frac{1}{4}$ dist.,
we found this $\frac{1}{4}$ stone & N $\frac{1}{4}$ stone
Section 16-88-12, (≠ Est. NE 16, on a
right line & doubled $\frac{1}{4}$ distance
from N $\frac{1}{4}$ Sec. 16-88-12.)

(From the East, ^(N^o 4 Sec. 15) is found a serious discrepancy from Original Gov. Survey) very nearly 2 chains.

N.E. COR-sec 16-88-12

June 1941

Chief! Youngerman
frei! Laoghtin

A hand-drawn map on grid paper showing a river channel and a timber pasture. The river channel is depicted as a winding line at the top of the map, labeled "River Bottom Timber Willows #30 forth". Below the river, there are two circular markers representing trees or blazes. The first marker is labeled "6" Ash Blaze" and has a line pointing to it with the number "6.18". The second marker is labeled "8" Ash Blaze" and has a line pointing to it with the number "86.2". A horizontal line runs across the middle of the map, with several numerical labels: "1461.9", "1461.9", "9/10", "16/15", and "2533.4". Below this line, there are more numerical labels: "1456616-88-12", "1445 tone", and "1445 1/2". At the bottom of the map, there is a large area labeled "Timber Pasture". An arrow points from the text "old River Channel visible" to a specific location on the river channel line.
